Skills

- **Languages**: Python, C++, Java, Dart
- **Frameworks**: NodeJS, React, Pandas, Flutter
- **Tools/Platforms**: MySQL MS Excel, Power BI, GitHub, VS Code
- **Soft Skills**: Problem-Solving, Team Player, Adaptability

Projects

Evertis – Waste Management Platform | Flutter, Dart, Gemini AI | Link August 2025

- Designed and developed a mobile application to promote sustainable waste management practices, helping users adopt eco-friendly habits.
- Integrated AI-powered chatbot (Gemini AI) to provide real-time guidance on waste disposal, recycling, and eco-friendly cooking methods.
- Built features to connect users with nearby recycling centers and NGOs, encouraging community-driven environmental impact.
- Implemented an intuitive UI using Flutter and Dart, ensuring smooth user experience and cross-platform compatibility.

Kooli Hub | React, Node.js, Supabase | Link April 2025

- Delivered a full-stack multi-vendor marketplace platform supporting diverse services like grocery, handyman, car rental
- and electronics with unified product, vendor, and order management.
- Structured a high-performance SPA using React 18, TypeScript, Vite, TailwindCSS, and Radix UI for a consistent and responsive user interface.
- Fortified backend logic with Express.js and Supabase PostgreSQL using Row-Level Security (RLS) for role-based data access control.
- Trimmed API surface area by prioritizing client-side Supabase operations and streamlined server endpoints for improved performance.

Training

Data Structures & Algorithms Training – Cipher Schools (Java Programming) | Link May 2025 – June 2025

- Completed a 70-hour intensive training in Data Structures and Algorithms using Java
- Focusing on problem-solving, algorithm analysis, and efficient coding.
- Developed the **Library Book Tracker** system during the training, implementing searching
- Sorting, and data-handling logic using core DSA concepts.
- **Technologies Used:** Java, Data Structures & Algorithms, OOP, Git & GitHub, VS Code.

Certificates

- Build Generative AI Apps and Solutions with No-Code Tools | Link — September 2025
- Cloud Computing | Link — April 2025
- Completed 30+ hours of live Python industry-oriented training | Link — March 2024

Achievements

- Successfully completed NCC Combined Annual Training Camp (CATC). — September 2025
- Gained military-style training focused on discipline, teamwork, and leadership.
- Completed intensive physical conditioning as part of NCC training.

Education

- **Lovely Professional University** — Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; CGPA: 6.58 — August 2023 – Present
- **Sri Chaitanya Jr Collage** — Tirupati, Andhra Pradesh
  Intermediate; Percentage: 93 — June 2022 – May 2023
- **Rainbow High School** — Rayachoty, Andhra Pradesh
  Matriculation; Percentage: 100 — June 2020 – March 2021
